EVENT SITUATION

You are to assume the role of the **MARKETING MANAGER** at **METRO AUTO CLEAN**, a full-service car wash and detailing center located in a busy suburban area. The **OWNER** (judge) wants you to create a promotional plan to introduce a new, eco-friendly "Waterless Detail" service.

METRO AUTO CLEAN has been in business for 15 years and is known for its traditional conveyor belt wash and high-quality hand waxing services. However, the local community has recently become very environmentally conscious, and the city has imposed stricter water usage regulations during the summer months.

To adapt to these changes and attract new customers, the **OWNER** (judge) has invested in a new line of biodegradable, waterless cleaning products that clean and polish vehicles without using hoses or high-pressure sprayers. This new "Waterless Detail" service saves 50 gallons of water per car but costs 20% more than a standard wash due to the specialized products and manual labor required.

The **OWNER** (judge) has asked you to develop a promotional plan to launch this new service. The plan must:

- Identify the specific target market most likely to pay a premium for an eco-friendly service.
- Determine which elements of the promotional mix (advertising, personal selling, sales promotion, public relations) will best communicate the environmental benefits.
- Create a catchy slogan or tagline for the "Waterless Detail" service.
- Explain how to use social media or mobile apps to reach customers.

You will present your ideas to the **OWNER** (judge) in a role-play to take place in the Owner's office. The **OWNER** (judge) will begin the role-play by greeting you and asking to hear your ideas. After you have presented your ideas and have answered the Owner's (judge's) questions, the **OWNER** (judge) will conclude the role-play by thanking you for your work.

Possible Judge's Questions:

1. How can we convince long-time customers that a "waterless" wash will actually get their car clean?

2. How will we know if our promotional plan is successful?
