EVENT SITUATION

You are to assume the role of a human resources consultant for SUNRISE TECH, a rapidly growing technology firm. The CEO (judge) has asked you to provide recommendations on how to improve emotional intelligence among employees to foster a more cohesive workplace environment.

SUNRISE TECH has experienced significant growth, which has led to increased stress and communication issues among teams. The CEO believes that enhancing emotional intelligence within the workforce could lead to better collaboration and reduced conflict.

In your meeting with the CEO (judge), you will need to address the following points:

- Definition and importance: Start by defining emotional intelligence and explain its significance in the workplace, particularly in a tech environment where collaboration is key.
- Assessment of current emotional intelligence levels: Propose methods for assessing the current levels of emotional intelligence among employees, such as surveys or interviews.
- Training initiatives: Recommend specific training programs or workshops aimed at developing emotional intelligence skills, such as empathy, self-awareness, and conflict resolution.
- Implementation strategies: Outline a step-by-step plan for rolling out the training initiatives, including timelines and responsibilities.
- Evaluation metrics: Suggest how to measure the effectiveness of the emotional intelligence training and its impact on team dynamics and overall productivity.

You will present your recommendations to the CEO (judge) in a formal meeting setting. The CEO (judge) will begin the meeting by welcoming you and asking for your insights on emotional intelligence. After you have presented your recommendations and addressed any questions, the CEO (judge) will conclude the meeting by thanking you for your valuable input.

Possible Judge's Questions:

1. Can you elaborate on the specific surveys or interview questions you would recommend using to assess current emotional intelligence levels among employees?
2. How do you plan to address potential resistance from employees who may be skeptical about the need for emotional intelligence training?
