BUSINESS FINANCE SERIES EVENT

PARTICIPANT INSTRUCTIONS

(quoted directly from DECA, INC)

- "This event is presented to you through your review of the Career Competencies, Performance Indicators and Event Situation."
- "You have up to 10 minutes to review this information and prepare your presentation. Using the materials provided, you may make notes to use during your presentation."
- "You will have up to 10 minutes to present to the judge(s)."
- "You will be evaluated on your solution to the event situation, how you incorporate the performance indicators of this event and how you demonstrate the career competencies."
- "Turn in all your notes and event materials when you have completed the event."

SOLUTION

- Unique – Demonstrate original thinking, fresh perspectives and an insightful approach.
- Practical – Develop an actionable/viable solution in a real-world context.
- Effective – Develop a solution that achieves relevant outcomes.

CAREER COMPETENCIES

- Critical Thinking – Think critically to understand and solve problems.
- Communication – Communicate clearly, effectively and with reason.
- Decision Making – Consider the impacts of decisions.

PERFORMANCE INDICATORS

1. Discuss the economic impact of inflation on business.
2. Explain the principles of supply and demand.
3. Describe the functions of prices in markets.
4. Determine factors affecting business risk.
5. Demonstrate a customer-service mindset.

EVENT SITUATION

You are to assume the roles of the vice president of underwriting and the vice president of policyholder services at CORNERSTONE MUTUAL INSURANCE, a regional company that sells auto and homeowners insurance in four states through independent agents. The president (judge) wants your team to explain why premiums must rise and to plan how to communicate the increase to policyholders and agents.

Over the past two years, the cost of paying claims has climbed sharply. The average auto repair claim is up 22%, driven by pricier imported parts, new vehicles packed with costly sensors and cameras, and a shortage of qualified repair technicians. Homeowners claims are up too: new tariffs on imported lumber, steel and other building materials have pushed rebuilding costs up about 15%. Severe storms have also been more frequent in two of the four states.

To stay financially healthy, CORNERSTONE plans to raise average premiums by 16% at renewal. Policyholders are already frustrated. Many have never filed a claim and don't see why they should pay more, and policy cancellations are up 9% this year. A major competitor raised its rates by only 10% but stopped writing new homeowners policies in coastal counties.

The president (judge) will meet with the Agent Advisory Council next week and wants your team to:

- Explain how inflation and tariffs have raised CORNERSTONE's costs.
- Use supply and demand to explain why repair and rebuilding costs have climbed.
- Explain the role premiums (prices) play in the insurance market.
- Identify the risks CORNERSTONE faces if it raises premiums too little, or too much.
- Recommend a customer-focused plan for communicating the increase and helping policyholders manage their costs.

You will present your ideas to the president (judge) in a meeting at the corporate office. The president (judge) will begin the meeting by greeting you and asking to hear your ideas. After you have presented and answered the president's (judge's) questions, the president (judge) will conclude the meeting by thanking you for your work.

Possible Judge's Questions:

1. Why can't we absorb the higher costs for a year or two and wait for prices to come back down?
2. Our competitor raised rates less but stopped writing new coastal policies. Is their strategy better than ours?
