- Communication – Communicate clearly, effectively and with reason.
- Decision Making – Consider the impacts of decisions.

PERFORMANCE INDICATORS

1. Discuss the nature of customer relationship management.
2. Describe the use of technology in customer relationship management.
3. Build and maintain relationships with customers.
4. Demonstrate a customer service mindset.

EVENT SITUATION

You are to assume the role of a marketing assistant at PAWS & CLAWS, a pet supply store with three locations. The store manager (judge) has asked you to explain how a new loyalty app can help the store build stronger relationships with customers.

PAWS & CLAWS recently launched a free loyalty app. When customers sign up, they enter their pet's name, type of pet and birthday. The app tracks what customers buy and gives them points they can use for discounts. So far, 2,000 customers have signed up, but the store has not yet decided how to use the customer information it is collecting.

The store manager (judge) wants you to explain what customer relationship management is, how the store can use the app and other technology to build relationships with customers, and how employees in the store can support those relationships.

You will present your ideas to the store manager (judge) in a role-play to take place in the manager's office. The store manager (judge) will begin the role-play by greeting you and asking to hear your ideas. After you have presented your ideas and have answered the store manager's (judge's) questions, the store manager (judge) will conclude the role-play by thanking you for your work.

Possible Judge's Questions:

1. What is one way we could use a pet's birthday in the app to build loyalty?
2. How can we use purchase history without making customers feel like we are watching them?
