EVENT SITUATION

You are to assume the role of an insurance agent at CROSSROADS INSURANCE AGENCY. A recent college graduate (judge) is moving to a new city for a first full-time job and needs both auto insurance and renter's insurance.

The graduate (judge) has signed a lease on a one-bedroom apartment. The landlord requires all tenants to have renter's insurance. The graduate (judge) estimates that their furniture, clothing, television, laptop and bicycle are worth about $9,000 in total.

The graduate (judge) also just bought a used 2019 sedan with an auto loan and must insure it. You have given the graduate (judge) two auto insurance quotes with the same coverage:

- Option A: $500 deductible for $142 per month
- Option B: $1,000 deductible for $121 per month

The graduate (judge) has $1,200 in savings after paying for the move.

Before making a decision, the graduate (judge) wants you to explain the following:

- What kinds of losses do auto insurance and renter's insurance each cover?
- What factors will affect how much the renter's insurance will cost?
- Should the auto policy have the higher deductible or the lower deductible?

You will present the information to the graduate (judge) in a role-play to take place in your office. The graduate (judge) will begin the role-play by greeting you and asking about insurance for the move. After you have presented the information and have answered the graduate's (judge's) questions, the graduate (judge) will conclude the meeting by thanking you for your work.

Possible Judge's Questions:

1. If someone breaks into my car and steals my laptop, which policy would pay for it?
2. Will I save money if I buy my auto insurance and renter's insurance from the same company?
