EVENT SITUATION

You are to assume the role of a Marketing Specialist at ECO VIBE, a company specializing in eco-friendly home products. You have been asked to address a new product line based on customer feedback. The Marketing Director (judge) asked to meet with you about this new product line.

ECO VIBE is a company dedicated to creating eco-friendly products for home use. The company is known for its sustainable and innovative solutions, including reusable kitchen wraps, biodegradable cleaning supplies, and energy-efficient lighting. The products at ECO VIBE are generally more costly than traditional products, but their consumers are willing to pay a premium for eco-friendly home products.

Recently, ECO VIBE launched a new line of eco-friendly garden tools. Although the tools are designed with sustainable materials and are well-received in general, customer feedback indicates that some customers find the products difficult to use and lacking in ergonomic design. The feedback also suggests that there is a demand for more variety in the product line.

The Marketing Director (judge) wants you to present a plan on how to address this customer feedback. Specifically, you need to analyze customer feedback, propose improvements, and outline a marketing strategy for the new product line.

You will present your plan to the Marketing Director (judge) in a role-play to take place in the Marketing Director's (judge's) office. The Marketing Director (judge) will begin the role-play by asking you to discuss the customer feedback and your proposed changes. After you have presented your plan and answered any questions, the Marketing Director (judge) will conclude the role-play by thanking you for your work.

Possible Judge's Questions:

1. How do you plan to measure the success of the changes made to the garden tools based on customer feedback?
2. How do you plan to manage the potentially higher production costs associated with these improvements while maintaining our price point?
