AUTOMOTIVE SERVICES MARKETING EVENT

PARTICIPANT INSTRUCTIONS

(quoted directly from DECA, INC)

- "This event is presented to you through your review of the Career Competencies, Performance Indicators and Event Situation."
- "You have up to 10 minutes to review this information and prepare your presentation. Using the materials provided, you may make notes to use during your presentation."
- "You will have up to 10 minutes to present to the judge(s)."
- "You will be evaluated on your solution to the event situation, how you incorporate the performance indicators of this event and how you demonstrate the career competencies."
- "Turn in all your notes and event materials when you have completed the event."

SOLUTION

- Unique – Demonstrate original thinking, fresh perspectives and an insightful approach.
- Practical – Develop an actionable/viable solution in a real-world context.
- Effective – Develop a solution that achieves relevant outcomes.

CAREER COMPETENCIES

- Critical Thinking – Think critically to understand and solve problems.
- Communication – Communicate clearly, effectively and with reason.
- Decision Making – Consider the impacts of decisions.

PERFORMANCE INDICATORS

1. Demonstrate a customer service mindset.
2. Handle customer/client complaints.
3. Interpret business policies to customers/clients.
4. Build and maintain relationships with customers.
5. Identify product's/service's competitive advantage.

EVENT SITUATION

You are to assume the role of a service advisor at KESTREL MOTORS, a dealership that sells and services Kestrel vehicles. A customer (judge) is upset about the cost of the first service visit for an electric vehicle.

One year ago, the customer (judge) bought a new Kestrel Volt, the brand's first all-electric vehicle. During the sale, the salesperson said that electric vehicles "need almost no maintenance." The car now has 18,000 miles, and the customer (judge) brought it in for its first scheduled service. The service includes a tire rotation, cabin air filter, brake fluid check and software update, for a total of $189. The technician also found that the front tires are worn and recommends replacing them for $420. Electric vehicles are heavier than gas vehicles, so their tires often wear out faster. The Kestrel Volt warranty covers the battery and electric motor for 8 years, but it does not cover tires or normal maintenance.

The customer (judge) bought an electric vehicle to save money and feels misled. The customer (judge) is thinking about taking the car to a discount tire shop and never returning to KESTREL MOTORS. KESTREL MOTORS is the only business within 50 miles with technicians certified to work on the Volt's high-voltage system.

You will speak with the customer (judge) in a role-play to take place at the service desk. The customer (judge) will begin the role-play by explaining the problem. After you have handled the situation and have answered the customer's (judge's) questions, the customer (judge) will conclude the role-play by thanking you for your help.

Possible Judge's Questions:

1. The tire shop down the street is cheaper. Why should I keep coming back here?
2. How will I know what my car needs and what it will cost before my next visit?
