EVENT SITUATION

You are to assume the roles of entrepreneurs starting a new business, PRECISION MOWER REPAIR, a lawn mower repair and maintenance service specializing in fast, reliable, and affordable repairs for residential and commercial lawn mowers. A small business investor (judge) has expressed interest in your idea but requires more details before deciding to invest.

Lawn care is an essential part of home and business maintenance, and many people rely on their lawn mowers regularly. However, when mowers break down, customers often struggle to find quick and affordable repair services, leading to costly replacements. PRECISION MOWER REPAIR provides expert repair and routine maintenance services to help homeowners, landscapers, and businesses keep their equipment running smoothly.

The small business investor (judge) wants to understand the financial potential of your business before deciding whether to invest. You must present a clear business plan and demonstrate that PRECISION MOWER REPAIR can succeed in the market. Your presentation must include:

- The need for your entrepreneurial idea
- Investment proposal
- Operational plan
- Marketing strategy
- Projected success
- Potential risks and challenges

You will present your business proposal to the investor (judge), who will listen to your ideas and ask follow-up questions. The investor (judge) will conclude the meeting by thanking you for your work and considering whether to invest in your venture.

Potential Judge's Questions:

1. How do you plan to attract and retain customers, especially during off-season months when lawn mower usage declines?
2. What specific competitive advantages does Precision Mower Repair have over existing repair services in the market?
