EVENT SITUATION

You are to assume the role of business partners who own SOCIAL SCOOPS, a trendy, social-media-driven ice cream shop in a city with a population of 250,000. SOCIAL SCOOPS specializes in unique, highly photogenic ice cream creations, including colorful rolled ice cream, waffle cones with edible glitter, and specialty flavors inspired by viral food trends. The shop encourages customers to share their purchases on social media by offering aesthetically designed serving dishes, trendy décor, and a dedicated "selfie station" with fun backdrops and props.

The business has grown rapidly over the past two years due to word-of-mouth marketing and strong engagement on Instagram and TikTok. However, as competition increases, SOCIAL SCOOPS is looking for new ways to sustain its growth and increase sales without significantly increasing advertising costs.

You have scheduled a meeting with a marketing consultant (judge) to explore two potential marketing expansion strategies:

- A mobile ice cream truck that can travel to festivals, corporate events, and local hot spots.
- A nationwide shipping option that allows customers to order pre-packaged ice cream kits, including signature toppings and custom serving ware, to recreate the Social Scoop experience at home.

The consultant (judge) wants you to present a detailed marketing plan for each option, including:

- How each strategy will align with SOCIAL SCOOPS' brand and existing social media-driven marketing approach.
- How you will promote the expansion to existing and new customers.
- The costs and benefits of each strategy.
- Potential partnerships or collaborations that could enhance the success of the expansion.

You will present your ideas to the consultant (judge) in a meeting to take place in their office. The consultant (judge) will begin the meeting by greeting you and asking to hear your ideas. After you have presented your ideas and answered the consultant's (judge's) questions, they will conclude the meeting by thanking you for your work.

Potential Judge's Questions:

1. How do you plan to measure the success of each expansion strategy, and what key performance indicators (KPIs) will you track?
2. What challenges do you anticipate with implementing the mobile ice cream truck or the nationwide shipping option, and how will you address them?
